Subscriber Acknowledgement Report
WC Docket No. 05-196
September 1, 2005
SunRocket, Inc.
Vienna, VA

A detailed explanation regarding current compliance with the notice and warning sticker requirements if the provider did not notify and issue warning stickers or labels to 100% of its subscribers by the July 29, 2005 deadline. Providers expected to update this information include those that were in the process of providing notice and/or stickers to their subscribers, but had not completed the process by July 29, 2005.

SunRocket sent notifications and warning stickers to all of its subscribers by the original July 29, 2005 deadline.

A quantification of the percentage of the provider's subscribers that have submitted affirmative acknowledgements as of the date of the September 1 and September 22 reports, and an estimation of the percentage of subscribers from whom the provider does not expect to receive an acknowledgement by September 28, 2005.

As of August 30, approximately 94.5 % of SunRocket's subscribers have submitted an affirmative acknowledgement. The Company estimates that it may not receive an acknowledgement from approximately 3-4% of its subscribers by September 28, 2005.

A detailed description of any and all actions the provider plans to take towards any of its subscribers that do not affirmatively acknowledge having received and understood the advisory.

SunRocket is continuing to seek acknowledgements from its remaining subscribers through a variety of means, including e-mail, voice mail, and telephone calls. As expressed in its August 10 Subscriber Notification Report and its *ex parte* presentation and filing on August 17 and August 18, SunRocket remains very concerned about potentially having to disconnect subscribers who do not acknowledge by the September 28 deadline, particularly because SunRocket currently provides E911 to nearly 90% of its subscribers.

A detailed description of any and all plans to use a "soft" or "warm" disconnect (or similar) procedure for subscribers that fail to provide an affirmative acknowledgement by September 28, 2005.

SunRocket is in the process of investigating the feasibility of instituting a “soft” or “warm” disconnect for subscribers who fail to provide an affirmative acknowledgement by September 28, 2005.
